

WEEKLY REPORT

Work done in last week:

22/01/2024	1) Design Admin Section Sign-in Layout: Initiate the design process for the Admin Section Sign-in layout, ensuring a clean and intuitive interface for administrators to log in. 2) Styling Admin Section Sign-in: Begin styling the Admin Section Sign-in layout, incorporating branding elements and ensuring consistency with the overall design theme.
23/01/2024	3) Admin Sign-in Endpoint: Proceed with the development of the endpoint "/admin" for admin sign-in, integrating authentication logic and security measures as needed. 4) Admin Section Sign-in Implementation: Start implementing the Admin Section Sign-in frontend component, connecting it to the newly created endpoint and ensuring seamless user authentication.
24/01/2024	5) Admin Sign-in Component Development: Continue developing the frontend component for admin sign-in, incorporating form validation and error handling for a smooth user experience. 6) Styling Refinement: Refine the styling of the Admin Section Sign-in layout, focusing on layout adjustments and visual enhancements to improve usability and aesthetics.

Reason for incomplete work:

Backend Diagram is Incomplete because lots of Bug and error handling in admin Page endpoint or we can say REST Api.

Plans for next week:

Next week , stat working on Backend and Focus will design “sequential Diagram, Use case Diagram , Class Diagram , Interaction Diagram , Activity Diagram and create Data Dictionary for database .
